EARTH QUAKE AN TIDAL WAVE.

Six Hundred Lives Lost and Many Important Towns Leveled to the Ground.

NEW YORK, June 11.—The *Star and Herald* of Panama, received to-day, has details of the disasters and destruction caused on the South Pacific Coast by the earthquake and tidal wave of May 9th. The towns of Areca, Iquique, Ponta, Delabos, Isabellon, Depica, Copilla, Chanavaya, Huanillos, Cobija, Mijillones, DeBoliva, Antopagasta and Chanabarel are nearly destroyed. About 600 lives were lost. The destruction of property is estimated at $20,000,000, confined mostly to the coast, although the town of Tarapaca, twenty-three leagues inland, and the villages of Pocomattalla and Conejonas, far in the interior, were more or less ruined. The shipping of guano from southern deposits will be indefinitely suspended. The destruction of shipping has been very great, and very serious loss of life.

At Mollendo the railway was torn up by the sea 300 feet, and at Ilo it was injured. The shocks were very numerous, and caused immense damage. The sea receded from the beach, and a wave from ten to fifteen feet high rolled upon the shore, carrying all before it. Eight times was repeated this assault of the ocean, and four miles of the embankment of the railway melted away like sand. Locomotives, cars and rails were hustled about like so many playthings, and left in a tumbled mass of rubbish. The steamer Wateree, stranded in 1868, was lifted bodily and floated two miles north. A cable buoy was carried a quarter of a mile northward. Merchandise from the Custom house and stores were carried away five miles distant. The damage was greater than that of 1868. It leveled the Custom house, railway station submarine cable office, hotel, British Consulate, steamship agency, and many private dwellings. The people passed the night on the hills. The thieves began to rob when the troops fired upon them killing and wounding several.

Iquique was built of wood and tumbled down at the first onset. Lamps were broken and the burning oil spreading over the debris, started a general conflagration. Three companies of firemen were instantly at their posts, although it was difficult to maintain an upright position, shock following shock with dreadful regularity. To procure water the two best fire engines were stationed at the beach. Just then the cry arose: "The sea! the sea," and the sea rushed in; the engines were carried by the reflux and the fire continued unsuppressed. There elements of destruction were busy at one moment; fire, water and earthquake. The affrighted people left the city to its fate, flying to the neighboring eminences. A small loss of life took place—probably ten persons in all. Coasting crafts and small boats in the harbor were broken to pieces away up the pampas, eleven miles from Iquique.

The sufferings of the people of Iquique were intense. It is estimated that the damage done in Iquique will amount to nearly $4,000,000.

Pabellon de Pica, with 450 houses has only two standing. In one of the guano cuttings thirty laborers were buried by the falling earth. Among shipping the havoc is terrible. The town of Tarabaza and the villages of Pica, Matella and Conehones were more or less ruined. The loss of life is small. The earthquake was especially severe at Chanooga. The earth opened fifteen metres in depth, and the whole surface of the ground changed. At least 200 people were killed. The bodies were floating in the bay and a pestilence is feared. At Huanillas, the wave which completed the destruction was nearly sixty feet in height. Many vessels were lost with several of those on board. At Mereillones the wave was 65 feet in height. Two-thirds of the town is completely obliterated. At Tecopilla little or nothing remains of the town. A mine caved called La Pena Blanca, smothering 200 workmen. Cabija has lost three-fourths of its houses.

At Lima, the Government loaded a vessel with provisions, clothing, etc., together with 50,000 gallons of water and dispatched her on the 16th for the South. 100,000 sales in silver coin also formed a part of her cargo, to be distributed among the unfortunates by a commission of engineers accompanying the expedition.

The steamer John Elder, when 23 miles west of Antafagasta, going at full speed, was completely stopped by the shock of the earthquake, and remained almost stationary for five minutes. The passengers believing she had struck on a reef, soundings were taken immediately, but no bottom was found.

EXTENSIVE FIRE AT WILLIAMS.

Loss, Upwards of $35,000.

We are indebted to Mail Agent Coleman, who was an eye witness, for the following particulars of the fire at Williams: At precisely 8 P.M. on Tuesday evening a coal oil lamp exploded in the two-story building known as The Granger Hall and Store Co's building, occupied in the lower story by Hyman & Sussman with a large stock of general merchandise, and the upper story as Odd Fellows' Hall. It being Lodge night, all the lamps were lit, and in five minutes after the explosion the whole room was in flames. Nothing belonging to the Odd Fellows could be saved. They lost about $1,500 in fixtures and furniture, and $122 in cash, which was in the secretary—no insurance. Hyman & Sussman had a stock of goods worth $26,000, which was a total loss. Insured in the Royal Canadian, Home Mutual of California, and New Zealand Insurance Companies for a sum in the total amounting to $11,000. The fire then leaped across the street, 80 feet, to Hudson's livery stable, which was soon consumed; but they saved all but one horse belonging to Rube Clark. This was a valuable animal, but could not possibly be saved. Hudson's loss was $2,500, insured in Commercial Union Insurance Company for $800. The fire then attacked N. Nelk's wagon shop, which was uninsured and valued at $1,000—nothing saved; J. H. Cole's blacksmith shop, which was a total loss with no insurance, and valued at $800. It was by the greatest and most heroic endeavors and the most dangerous perils, that the saloons of D. R. Matheson and A. Miller were saved; had either gone, the new hotel of W. H. Williams, valued at $45,000, would certainly have gone too. About 500 men from the surrounding farms gathered in a remarkably short space of time, and their endeavors in subduing the flames—with those of our town citizens were never more than equalled. About fifty men were stationed to watch the ruins the remainder of the night, which prevented the fire from further spreading. Our town would present a dismal appearance this A.M. but for the new buildings being already erected on the ground of the former ones. The total loss amounts to about as follows:

Hudson's Stable	$2,500 00
Hyman & Gussman, general merchandise	20,000 00
Building of Granger Hall and Store Co.	5,000 00
J. H. Cole, blacksmith shop	800 00
N. Nelk, wagon shop	1,000 00
	$35,300 00

H. H. Bigelow, adjuster of the Home Mutual Fire Insurance Company passed up the road last evening to adjust the losses of those insured in his company. Mr. Fiske of Woodland has insurance in one or two of the cases named as having sustained loss.

LETTER FROM DIXON.

[From Our Regular Correspondent.]

DIXON, June 12th, 1877.

EDITOR DEMOCRAT: On Friday last your correspondent left this place to go to Winters to "take in" the masquerade ball given under the auspices of Mrs. Wensley, of the Occidental Hotel. We reached Winters just after sunset, and after partaking of supper at the Parker House, took a stroll through the town. It is not as lively as it was a year ago, but we found that all were doing a fair business. At about 10 o'clock we proceeded to Sackett's Hall, where the music had just struck up, and in half an hour afterwards the maskers began to appear, and a good jolly set they were. First in rank we noticed a negro sport, with a handsomely dressed *Mexican lady* on his arm, represented by Mr. Henderson and our genial friend Ed. F. Fisher. Mr. Ed. Perry represented a clown; C. Bohman, doctor; W. O. Womack, Vallejo rooster; Pat. McGrath, clown; Thad. Spaulding and J. Murray, schoolboys; Miss Jessie Walsh, of Vallejo, morning star; Miss Addie Perry, shepherdess; Miss Minnie Perry, Queen of Liberty; Mr. E. Perry, (two characters) evening star; Mrs. Simpson, Greek lady; Mrs. Wensley, huntress; Mrs. McWilliams, peasant girl; John Bradford, Fra Divola; James Hinckley, Frenchman; and last but not least, the *Irish couple*, (two characters) very well represented by Mrs. J. Walters of San Francisco, and Mrs. E. Perry of Winters. The old man with his stick and pipe, and the old woman with her bottle, caused a good deal of amusement to the audience. Among those present we noticed Mrs. and Mr. Ely of Buckeye. Mr. and Mrs. Royce, Miss Hall, Miss Andruss and C. Schomer of Dixon.

Although it may not have been a success financially, it most certainly was socially. Your correspondent is under obligations to Mr. G. P. Huber for courtesies extended to us while acting as floor manager. We returned home well satisfied with our trip, and though we would like to say still more about Winters and vicinity, space will not allow us to do so.

The north wind has been blowing hard for the last five days and in consequence it is very hot, the thermometer standing at from 105 to 110.

Just imagine seeing us sitting under the porch sweating at the rate of two gallons an hour, and you will have a faint idea how hot it is.

The heavy north wind has done considerable damage to the grain, especially to the Sonora wheat. Everybody is busy cutting grain and several Steam threshers are busily engaged in this neighborhood.

The Bank of Dixon has bought one of the Yale Time Locks. Through the courtesies of Mr. Kasten, the Cashier of the Bank, we were enabled to examine it, and found it to be a lock that no bank should be without as it insures against all robberies.

Our genial friend, Mr. A. Story, was married to Miss. Behrens on Wednesday last. They went to San Francisco on a short bridal tour and returned from there last night.

The anti-Chinese laundry, of which we spoke in our last, started business last week, and the managers assure us that they are meeting with great success. Why should they not? Are the white people not able to compete with the Mongolians? It is also a sure way of ridding this country of the Chinese, because whenever they find that they can make as much money in China as they can in California they will certainly stay at home.

The Adventists still hold their regular meetings at the tent, and have large audiences.

The Knights of Pythias of this place have bought the property known as Beane's Hall, which they intend to fit up in handsome style. The Masons have also improved their hall by putting on a new coat of paint, a new flag staff and other improvements.

Nothing new in the line of politics. Before I conclude, allow me to compliment you on the good style in which you are publishing your daily paper, it certainly must meet with success. Yours, ROMAN.

CALIFORNIA STATISTICS.

The report of Isaac Friedlander, President of the San Francisco Chamber of Commerce, presents a mass of interesting statistics relative to the industries of San Francisco and the State:

During the year 1876, 10,000,000 centals of wheat and 461,000 barrels of flour, having an aggregate value of nearly $18,500,000 were exported. Barley exports were larger than during any previous year, and were worth $420,000.

Of quicksilver, 76,135 flasks were exported during the year, against 52,250 flasks for 1875. California now takes the first place among the quicksilver producing countries of the world.

There were 52,588,000 pounds of wool sent out of this State in 1876, worth $8,200,000. Mr. Friedlander, with reference to this item, thinks it generally conceded that the limit of the State's capacity has been almost reached.

The shipments of gold overland were $21,250,214, against $23,731,000 in 1875. The total merchandise exports were $31,422,000, and of merchandise and gold and silver exports together, $81,181,000.

There were 1,000,000 gallons of wine sent from this State in the year under review, and it is estimated that 2,500,000 gallons were required for home consumption.

The salmon exports are valued at $900,000, a falling off of $440,000 on the figures of 1875. The decrease is attributed to the large quantity being shipped from Portland.

In the matter of imports California has had some pretty heavy bills to pay, although, of course, a part of them represents what it has re-sold or re-shipped, and not consumed. Of coffee and tea, it has had, respectively, 10,000,000 and 18,648,000 pounds; a considerable decline in both items from the figures of the preceding year. It has taken 68,000,000 pounds of sugar under the stimulating influence of the Hawaiian treaty. The imports of coal reached 650,000 tons; an increase from 1875 of more than 199,000 tons.

During the year $7,817,000 were collected in duties at the San Francisco Custom House, which is a little less than the amount for 1875.

The mining stock transactions at the three San Francisco boards aggregated $400,000,000.

The Cost of Feeding Paris.

The cost of the daily dinner of the Parisians has been calculated by one of the French papers as follows: Bread, about 275,000 francs; wine, 250,000 francs; beer and cider, 15,000 francs; water for cooking and drinking purposes, 6,500 francs; sausages, pigs' feet, etc., 8,000 francs; pates and crabs, 5,000 francs; oysters, 4,500 francs; eggs, 17,500; francs; butter, 11,000 francs; beef, 250,000 francs; veal, 20,000 francs; mutton, 35,000 francs; pork, 30,000 francs; poultry, 24,000 francs; fresh water fish, 2,000 francs; sea fish, 16,000 francs; vegetables, 200,000 francs; cheese, 4,000 francs; fruits and preserves, 12,000 francs; brandy, liquors, etc., 50,000 francs. This gives a total of 1,268,5000 francs, or about $255,000, with the addition of 5,000 francs, estimated cost of tooth picks, making altogether an average of 25 cents per head as the daily cost of the nourishments imbibed by the Parisians.

Read the County Treasurer's notice; also notice of money to loan.

TILDEN'S LONG SILENCE BROKEN.

The Manhattan Club of New York City tendered a reception to Governor Tilden and Governor Hendricks June 12th. Governor Tilden's speech was brief and to the point. He does not whine nor rant, but simply points out the great wrong that has been done the country in placing a man in the Presidential chair contrary to the expressed will of the people. Here is what Goverpor Tilden is reported to have said. Governor Hendricks' remarks are still more brief:

Everybody knows that after the recent election the men who were elected by the people as President and Vice-President of the United States were counted out, and men who were not elected were counted in and seated. I disclaim any thought of personal wrong involved in this transaction. Not by any act or word of mine shall that be dwarfed or degraded into personal grievance, which is in truth the greatest wrong that has stained our national annals. To every man of the four and a quarter millions who were defrauded of the fruits of their eleetive franchise, it is as great a wrong as it is to me, and no less to every man of the minority will the consequence extend.

Evils in government grow by success and by impurity. They do not arrest their own progress; they can never be limited except by extreme forces. If men in possession of government can in one instance maintain themselves in power against an adverse decision at elections, such an example will be imitated. Temptation exists always; devices to give color of law, and false pretences on which to found fraudulent decisions, will not be wanting. The wrong will grow into practice if condoned. In the world's history, changes in succession of governments have usually been the result of fraud or force. It had been our faith and pride that we had established a mode of peaceful change, to be worked out by the agency of the ballot-box.

The question is, now, whether our elective system in its substance as well as its form is to be maintained? This is the question of questions. It involves the fundamental rights of the people; it involves the elective principle; it involves the whole system of popular government. The people must signally condemn the great wrong which has been done them. They must strip the example of every thing that can attract imitators, They must refuse a prosperous immunity to crime. This is not all. The people will not be able to trust the authors, or beneficiaries of wrong, to devise remedies; but when those who condemn the wrong shall have the power, they must devise measures which shall render a repetition of the wrong impossible.

If my voice could reach throughout our country, and be heard in its remotest hamlet, I would say: "Be of good cheer. The Republic will live. The institutions of our fathers are not to expire in shame. The sovereignty of the people shall be rescued from this peril and re-established. A successful wrong never appears so triumphantly as on the eve of its fall. Seven years ago a corrupt dynasty culminated in its power over the million of people who live in the city of New York. It had conquered or bribed or flattered and won almost everybody into acquiescence. It appeared to be invincible. A year or two later its members were in penitentiaries or in exile. History abounds in similar examples. We must believe in the right and in the future. A great and noble nation will not sever its political from its moral life."

NEW YORK, June 12.—At the Manhattan reception, Governor Hendricks, after expressing his acknowledgement for the honor conferred upon him, said he would not disturb the pleasure of the occasion by undertaking to recount the means whereby the judgement of the people was defeated. The result, as declared in Louisiana, Florida and Washington could not be satisfactory because it was not true. Even should the President and the Cabinet adopt a part or the whole of the policies and purposes for which the Democratic party has been contending for many years and which became so distinctly defined last year, even that cannot quiet or remove the public discontent. Democrats will make no factious opposition, nor will they seek to embarrass the de facto administration. The first fraud triumphant in American history must be assigned to its proper place among crimes against popular government, and made so odious that no party will attempt its repetition. All Democrats rejoice that free governments are once more allowed to the States of Louisiana and South Carolina, and rejoice in the good fruits that must follow; but they know that, in the language of Governor Morton, it had become inevitable. For years Democrats had contended in Congress and before the people for free Republican States throughout the South, and finally it became inevitable, because right and truth were too strong to be longer suppressed.

Among the assemblage were David Dudley Field, Judge Donohue, Agustus Schell, Benj. J. Wood, Chief Justices Curtis and Daly, and a number of other prominent citizens. The proceedings terminated with brief speeches by Governor Robinson, Senator McDonald and others.

The Late Terrible Earthquake.

NEW YORK, June 13th.—Capt. Charles MacLeon of the ship Geneva, sunk at Huanillous in the great earthquake on the Pacific Coast on the 9th, has arrived. He says his ship became entangled with others as they tossed wildly about, crushing each other, sinking almost immediately in fifteen fathoms of water. On the first alarm he came up from between decks. It was about 8:30 P.M. There had been several shocks in the previous twenty days, but he had completed his cargo of Guano, and expected to sail next morning, aside from the frightful rumbling sound, his attention was arrested by the extraordinary phenomenon of the mountain above being so much agitated that great rocks became detached and rolled down towards the sea, resembling balls of fire. The water at the anchorage suddenly receded so that ships in eight fathoms touched bottom. The Geneva too swung round at the rate of eight or ten knots an hour in a great circle, until she struck against a rock, which tore out a part of her bottom, and the ship was forced violently in the opposite direction and went down. Other vessels were as violently driven ashore. The Captain says it seemed to him, from the sulphurous or electrical appearance of the mountain that a volcano was bursting out of its sides. Rocks were tumbling about with a frightful noise, and everything was lighted up. He thinks the damage to the shipping was caused not so much by the tidal wave as by the upward rush of water and rotary currents driving the ships repeatedly against each other.

New Signal Service Stations.

The Signal Service Bureau have recently ordered the establishment of a large number of stations, and the Pacific Coast has come in for its share. The new stations are located as follows: In California—Sacramento, Visalia, Los Angeles and Red Bluff. Nevada—Winnemucca and Pioche. Oregon—Roseburg and Umatilla. Washington Territory—Olympia and Boise City, Idaho Territory. Some twelve or fifteen stations have also been established on the military telegraph line in Arizona Territory.

The War in Montenegro.

LONDON, June 13.—The invasion of Wassajivie by the Turks is making progress, the Montenegrin force there being three battalions and the Turks having fifteen battalions of regulars are advancing via Berain from the Servian frontier, and a body of irregulars are coming from Cetinje. The total losses of Suleiman Pasha at Kretaz is estimated at 4,000.

On the approach of three flying columns sent by Muhktar Pasha against the Russian's right wing, the Russians not only evacuated Olti but Pennack, at the foot of the pass over the Kanly range leading to Ardshar. Both Olti and Pennack were occupied by the Turks, who went in pursuit of the Russians.

Turkish Rejoicing—Distrust o News

CHICAGO, June 13th.—The *Tribune's* Constantinople special says: The Sultan has ordered special praise services at St. Sophia on account of the recapture of Olti and the defeat at Pennack of the Russians. Foreigners distrust the news.

The above is not from the immediate scene of operations, and previous dispatches stated that the Russians were withdrawing in the direction of Erzeroum, in order to prosecute the seige of Kars.

Alabama Politicians—Square Talk.

WASHINGTON, June 12.—In the interview with Alabamians yesterday, the President said it was not his policy to appoint to office or retain in office Northern men who went to the South for the purpose of obtaining places. The views of the President gave entire satisfaction to the Delegation, they fully concurred in the propriety of his views.

Fight with Comanche Indians.

CHICAGO, June 13th.—Captain Lee has forwarded an account of his engagement with Comanche Indians near Lake Quemado, Texas, on the 4th of May. Four Indians killed and six squaws and fifty-six mules and horses captured. Fifteen lodges with a large supply of powder, provisions, etc., captured. Sergeant Butler was killed.

Battle Progressing at Kars.

CONSTANTINOPLE, June 14th.—The Turkish Sultan is staying at Minestreg awaiting news from Kars, where a great battle is in progress.

The Russians are pushing their siege works at Batoum, but reinforcements are greatly needed.

The Turkish officers are reported as despondent.

An official telegram of the 3d states that Suleiman Pasha has forced the entrance of the Dugu Pass after a most sanguinary battle, and that he is advancing on Nicsic. The Montenegrins were in full retreat.

Route to India to be Respected.

LONDON, June 14.—A dispatch from Berlin says the Russians are disposed to respect the route to India, and consequently neutrality will be observed as to the Suez Canal and Egypt.

Turks Too Strong for Montenegrins.

ST. PETERSBURG, June 14.—The impression prevails in Russian circles that the Montenegrins will be unable to resst the overwhelming forces of the Turks. The Austrian government will be sounded to see if that country is not disposed to do something to help them.

Tweed Wants to Save Expense!

NEW YORK, June 14.—In a letter from Tweed he expresses himself as anxious to confess judgment and be released from confinement, and thus *save the City further unnecessary expense!*

He is very much depressed, and says Connolly and Sweeny were as much in the ring frauds as he was. Tweed thinks he has a right to the same lenient treatment as they.

Russian Repulse.

The Russians have moved around Kars all the troops which they brought from Ardahan, Gurney, Cogeschman and Soureamiche. Saturday they made desperate efforts to take possession of some of the heights, when the garrison made a sortie, and with field artillery repulsed the Russians with great loss.

Operations on the Danube.

RUTSCHUK, June 14.—On Tuesday a party of Russians opposite Maretin made an attack in boats upon a Turkish monitor there, but the latter, with the help of the land battery, beat them off. Wednesday another attempt was made to construct a battery on the islands, but the Turks compelled the enemy to retreat.

Heavy Russian Loan.

LONDON, June 14.—The *Times* says: The Russian loan of $75,000,000 was originally offered to houses here and refused. It is now to be issued at Paris and Berlin. In face of the fact that an internal forced loan of 200,000,000 roubles has also been decreed, this borrowing indicates rapid exhaustion.

Grant in England.

LONDON, June 14.—Friday morning Grant will receive the freedom of the city; Friday afternoon attend a fete at the Crystal Palace; Saturday, Gen. and Mrs. Grant will dine with the Marquis of Lorn and Princess Louise at Kensigton Palace, following Friday evening he attends a State performance at the opera, and subsequently the ball given at Buckingham Palace. His present intention is to make an extended European tour, embracing Sweden and Norway, and then sailing down the Rhine, visit Switzerland.

Whiskey Distillers—Silver.

NEW YORK, June 14th.—A *Times'* special says: Some time ago a raid on illicit distilleries was made in Virginia. To-day, fifty prominent citizens of that locality, among whom are officials, ask that a sufficient force be sent to bring the distillers to justice.

A *World's* special says: Both the President and Secretary Sherman have expressed themselves that if silver is to be made a legal tender, custom dues and interest and principal of the public debt must be expressly exempted.

Absconded.

NEW YORK, June 14th.—The *World* says: Adolph Gerndt, a banker, is missing. It is believed his liabilities are $20,000.

A. Brossard is a defaulter to the amount of $20,000.

The *World's* Middletown, New York, special says: W. W. Cox, Tax Collector at Vernon, Sussex County, New Jersey, has absconded. He is a defaulter in the sum of $6,000. He failed in January for $60,000.

Wants to Settle.

NEW YORK, June 14th.—The *Sun* says: Fifteen months ago Connolly made a proposition to pay $500,000 to the city and return. The city demanded $700,000 which will be acceded to.

Appeal for Recognition of Diaz.

NEW YORK, June 14th.—Senor Romero has written a private letter to Washington urging the recognition of Diaz's Government. He thinks that the Government will be a stable one. The main hope of the opposition to it in Mexico rests on its non recognition by the United States.

Tilden's Income Tax.

NEW YORK, June 14.—In the suit of the United States against Samuel J. Tilden to recover income taxes from 1861 to 1871, complaint has been filed. The answer of Governor Tilden is returnable in about a week. The allegations in the complaint set forth the supposed income of Governor Tilden for each year in question and the amount of tax paid.

Another Great Battle.

ERZEROUM, June 15.—The Russians made another determined attack upon Kars, fighting throughout Saturday, Sunday and Monday. The Muscovite troops were defeated with great slaughter.

Sickness depletes the Turkish ranks in Asia faster than volunteers fill them up. During the last six months at least two thousand have died in the hospitals.

The Russians have seventeen torpedo launches in the Black Sea, and may resume an attack at any time.

Tweed Nearly Ready to Confess.

NEW YORK, June 15.—Tweed's counsel notified the *World* that his confession will be ready on Tuesday next.

Severe Storm—Fatal Consequences.

BOSTON, June 15.—A severe storm and hurricane occurred at Northampton Mass., yesterday afternoon. A large bridge fell with eight teams which were crossing, and several persons were killed and wounded.

The South Sustaining Hayes.

WASHINGTON, June 15th.—Delegations of representative men from the South have visited the President and assured him of the hearty acquiesence of the people so far as regards his policy of controlling offices in the Southern and Western States.

Silver to Replace Small Notes.

WASHINGTON, June 15th.—The issue of one and two dollar greenbacks will be discontinued, mainly to induce the banks to put silver coin in circulation. Silver is now going out of the Treasury at the rate of two millions a month.

Arizona Volcano in Eruption.

LOS ANGELES, June 15.—The Railroad Messenger in reply to inquiries as to the volcanic eruptions reported says they come from an old crater in the mountains eight miles from Funk's Station, and forty-two miles west of Yuma. The volcano was in active operation all Monday, throwing out boulders and smoke.

No Desire For Peace.

BUCHAREST, June 15th.—On the Russian army any foreshadowing of peace would fall with a thrill of disgust that would strain the bonds of discipline to its utmost. The army regards the capture of Constantinople as the only thing that can content the Czar.

Russia's Assurance.

LONDON, June 16.—Count Schouvaloff is to assure England that the route to India by way of the Suez Canal and Persian Gulf is free; that the treaties will be observed and that the Bosphorus and Dardanelles will be settled at the end of the war by a European Congress.

Executions and Suicides.

NEW ORLEANS, June 15th.—To-day the following were hanged in the prison yard, 200 persons present: Adrian Eveque, colored, who killed Richard Turner, February 6th, 1876; George Morris, colored, for killing Sarah Jones, November 30th, 1875; Joaquin Florenzo, for the murder of Marie Louise, January 16th, 1876. On the same day at Dayton, Ohio, Harry Adams was hanged for the murder of Henry Mullharren, February 13, 1876.

BLOOMINGTON, ILL., June 16.—Fred. Hendricks, a wealthy farmer near here shot his wife while drunk. He was found this morning a short distance from home having shot himself through the head.

WASHINGTON, June 16th.—Robert Richer, clerk in the Quartermaster General's office, quarrelled with his wife about her cat and kittens and his tomato vines. Richer then placed a revolver to his head exclaiming, "You see me," shot himself and instantly expired. He was appointed from Missouri.

Another Dam Disaster.

BELVIDERE, N. J., June 15th.—Yesterday the mill dam of Norwich suddenly broke, and precipitated a fishing party consisting of ten persons through the sluice way. Four persons were drowned and the owners of the boat Fisher and Osfelt were fatally injured.

Various Matters of Interest.

BOSTON, June 16.—James Russell Lowell has accepted the Spanish mission and will shortly leave for Spain.

NEW YORK, June 16.—Senator Conkling sailed to-day for Europe. Distinguished Republicans accompanied him down the bay.

Archbishop Williams sailed to-day for Rome. He carries a large present of money and two addresses to the Holy Father.

Justices Puhlman and Dorsey, of Jersey City, for conspiracy to defraud have been sentenced to a year in the Penitentiary and six months in Jail respectively.

Secretary Sherman has issued an order directing Treasurer Wyman to issue additional

The Yolo Democrat

OFFICIAL PAPER OF YOLO COUNTY.

FOR PRESIDENT IN 1880:

SAMUEL J. TILDEN;

AND FOR VICE-PRESIDENT,

THOS. A. HENDRICKS.

WOODLAND, CAL:

Thursday, June 21st, 1877.

DEMOCRATIC CENTRAL COMMITTEE.

It being desirable that arrangements should be made for the nomination of County Officers for the ensuing election, etc., it is hereby ordered that the members of the Democratic Central Committee of Yolo County meet in Woodland on SATURDAY, JUNE TWENTY-THIRD, for the purpose of making such arrangements to that end as may be deemed necessary. Following are the members of the Committee: First District, R. W. Megowan; Second District, J. R. Briggs; Third District, W J. Clark; Fourth District, M Steinmitz; Fifth District, J. H. Murphy; at large, Ed. Bynum of Woodland, and Harrison Gwinn of Knights Landing.

O. M. GWINN, Chairman.
E. BYNUM, Secretary. je14dwtd

THE ISSUES PLAIN ENOUGH.

The *Record-Union* remarks that it is almost time to ask what issues the Democratic party means to go to the country upon next? The Stockton *Herald* very appropriately replies:

"We beg to assure our contemporary that there is no harm in asking—and no difficulty in answering. The Democratic party means to go to the country upon the same issues upon which it has gone these last hundred years. The Constitution strictly construed; the rights of the States against Federal usurpation and centralized tyrany; the restriction of the Federal government to the exercise of its delegated and legitimate powers; the subordination of the military to the civil power; government for the benefit of the people, taxation for revenue and not for plunder; free trade, free States and free men; sound currency; healthy legislation; honest administration; no more military rule; no more subjugation of States for partisan ends; no more carpet bag usurpation; no more fraudulent elections; no more Returning Boards; no more Electoral Commissions; no more Whisky Rings, Indian Rings, Navy and Army Rings, Railroad-Subsidy Rings, Federal Rings within Rings; no more defrauding, and swindling, and plundering the people. O, there are a good many issues upon which the Democratic party means to go to the country, now as ever." And, remarks the *Democrat*, it might have added no more Fraudulent Presidents; no more stealing the seat once filled by Washington.

QUALITY VS. QUANTITY.

Referring to the fact that there are now three Democratic "organs" in San Francisco, the Sacramento *Bee* suggests that there are "enough papers but a woeful lack of brains." This sounds as if the *quality* of brain did not enter into the *Bee's* computation; that the *quantity* only is important. Our evening contemporary can certainly find no fault on that score with the voluble quill drivers who daily dilate through the "organs" on the other side of the house, for some of them are continually slobbering over, wasting words and space, making a great ado about nothing. In a journalist, especially, the *quality* of "brains" is vastly more important than the quantity. It appears, as seen through our spectacles, that in point of real ability, brain power and the exhibition of sound sense and reasoning faculties, the "three Democratic 'organs' in San Francisco," particularly the *Examiner*, compare very favorably indeed with any others, either in San Francisco, Sacramento or elsewhere.

REVOLUTION IN TELEGRAPHY.

Loring Pickering, of the San Francisco *Call*, has patented an invention which, if successfully applied, will work a complete revolution in the manner of transmitting intelligence over telegraphic wires. That paper in alluding to the matter a few days since said:

For instance, a fac simile copy, precisely like the original, of a New York or Washington newspaper, can be transmited to San Francisco in half an hour. It would thus be within the power of the editors of the *Call* to surround themselves with copies of the editorial and news pages of the principal Eastern papers before those papers would reach the hands of their Eastern readers. At present a news correspondent gathers such news as he deems most interesting and presents it for publication. Very much depends on his sagacity, his facilities for reaching the source of news, and his judgement in sifting the true or probable from the false or purely sensational. Mr. Pickering's process will enable the night editor in San Francisco to scan the editorial and news columns of the leading dailies in the principal cities of the Union, and thus add materially to the completeness of the *Call* as a reflex of the world's history of the previous day.

A READING PEOPLE.

In connection with the Newspaper Directory lately published by S. M. Pettengill & Co., New York, a good idea can be obtained of the standing which Americans occupy as a reading people in the statement that of the various political, literary, religious, agricultural, medical and other publications that appear, the names of no less than 795 dailies, 79 tri-weeklies, 125 semi-weeklies, 6,606 weeklies, 122 semi-monthlies, 771 monthlies, 16 bi-monthlies and 60 quarterlies are published in the United States and the British American Provinces.

THE ONLY FRACTICABLE ROUTE.

The "locked up" people of Lake County, if that expression may be used, are becoming quite anxious about securing railroad communication with "the outside world," and reiterate what we have before remarked that the only feasible route for a railroad is to follow the natural water-course of Cache Creek, which is the outlet to Clear Lake. A late number of the Lower Lake *Bulletin* contained the following on the subject: "It is quite a source of amusement to those who are in the least informed as to the topography of the country lying between Loconomi Valley and Pope Valley, to note the simplicity and the ignorant manner in which men who ought to know better, lay out routes as feasible from some point on the Napa Valley Railroad to Lake county. The route mentioned by a recent correspondent of the Napa *Register*, from Guenoc, is entirely impracticable. The impassable barrier of mountains between the aforesaid Napa Valley and Chiles Valley make it so, and it is folly to talk of a railroad route over such a country. There is no such thing as a railroad route, we are informed, between Napa and Lake counties. The people of Lake county are earnestly talking railroad, but they see no other way of getting it than by the Cache Creek route."

SOUTH CAROLINA UNDER DEMOCRATIC RULE.

H. V. Redfield is watching events at Columbia for the Cincinnati *Commercial*. He finds South Carolina under Democratic rule so novel a spectacle that it takes several days to get used to it, and reports the State more quiet and peaceable than he has known it before or since reconstruction. The negroes submit to the new dispensation readily, but the more thoughtful feel very sad over the belief that citizenship is really departing from them. The Legislature is investigating right and left, "and will find enough fraud to sicken the nation." One of the petty steals was the appropriation of $5,000 for pictures of Lincoln and Sumner, which was drawn from the treasury to build a new house for the chairman of the committee appointed to get the paintings. Mr. Redfield finds the Democrats pretty dictatorial and resolved never to allow the Republicans to be in power again, but confesses that "this fierce antagonism is not without cause." The career of the Republican party here has been a libel upon civilization. Its rule has been imbecility and robbery. Offices and public trusts were bought and sold without shame. The Legislature was little less than a den of thieves.

WHY SO ICY COLD?

A Washington dispatch of the 12th says that "Senator Conkling, who was there for four days, secured his passport for Europe through subordinates of the State Department, as his relations with Evarts precluded personal intercourse with that gentleman. During Conkling's stay here it is said, by his intimate friends, that he did not call at the White House, nor did he meet the President, and further that he has abstained entirely from recommendations in behalf of persons who seek Presidential favors, leaving himself free to oppose or support the President when Congress meets, as he may see fit." Mr. Conkling is one of the acknowledged leaders of the Republican party; but ever since Tilden was elected by the people and counted out and Hayes defeated by the same people and counted in, Mr. Conkling has exhibited this coolness toward the administration. May it not be that the acts referred to are the cause of Mr. Conkling's iciness?

WHY ATTEMPT TO MYSTIFY?

SAYS THE YOLO DEMOCRAT: Three of the persons who accepted our offer of THE YOLO DEMOCRAT for one year to pay when Tilden was elected, and didn't pay accordingly, have since died violent deaths. One was accidentally shot, another was shot purposely by another man, and the third shot himself from remorse. These remarks lead the Vallejo *Chronicle* to these conclusions: Either that betting against Tilden was unlucky, or that it is unlucky to read Democratic papers, even when they don't cost anything.—*S. F. Bulletin.*

We fail to see what is to be gained, or that the crime of the poor unfortunate victims can be in any degree condoned, by thus—to use a vulgarism—"chasing Old Nick around the stump." Why not come right out and admit that if the poor fellows had fulfilled their part of the agreement and paid over their little four dollars each "when Tilden was elected," they might not yet have died? We do not say they wouldn't, but shall insist that they *might not* have died.

HAYES AND THE S. P. R. R.

This is the way in which the Hollister *Telegraph* puts it: "While it is said that the President will not commit himself to the Texas Pacific or any other railroad scheme, he will, in his next message to Congress, recommend aid for a "Southern Pacific Railway." He had better recommend aid for the thousands of starving people around his own door, and let those bloated thieves alone that are continually hanging around Washington asking for money with which to build railroads to the Pacific, or somewhere else."

OUR DAILY.

The following additional notices have come to hand:

We have received the first number of the WOODLAND DAILY DEMOCRAT, Wm. Saunders, publisher. It makes a good beginning, and we have no doubt will do well.—*Lake Co. Bee.*

THE YOLO DEMOCRAT is now published as a daily and weekly. As its name indicates, it is Democratic in politics and to the issues of the day. We wish it success.—*Hollister Telegraph, June 14th.*

Woodland has a daily, published by Wm. Saunders, publisher of THE YOLO DEMOCRAT. The daily has a fine appearance.—*Solano Republican.*

NEW YORK, June 18th.—Controller Kelley states that New York has an assessed valuation of more than one thousand million dollars; that its indebtedness is less than one-tenth of that amount, and that the city owns untaxed real estate of the value of nearly $250,000,000.

Indian War in Idaho.

PORTLAND, Oregon, June 19.—The steamer Alcuata, from Lewiston, Idaho, brings news from Salmon river that the Indians and Joseph's band came in contact on Camas Prairie, where serious demonstrations of the hostility of the Indians had occurred.

Four white men were killed at the mouth of Salmon River. Settlers were frequently attacked and had become alarmed. They asked for troops, but none came. On Friday the Indians attacked and killed five men on the prairie, took possession of teams and forced the drivers to abandon them.

The Indians had possession of all the prairie except Mount Idaho. On Friday 100 troops left Tapwill garrison for Mount Idaho. A part of the Indians had gone to attack settlers on the river and another part to Cottonwood Creek. Troops are in pursuit.

Messages from Camoi state that twenty-nine whites have been killed and the whites had killed White-Bird, chief of the band, and captured his family.

Later information states that troops and a number of men had encountered the Indians in White-Bird Canyon. The troops dismounted, left twenty friendly Indians and a few soldiers to guard the horses. The Indians opened fire, and seeing that they were gaining ground the whole horse guard broke and ran, leaving the horses to gallop over the plains.

Many houses have been burned. Soldiers who arrived from the garrison on the 18th say the troops on foot in the canon had a hand to hand fight, surrounded by the Indians. Col. Perry and half his command are said to have been killed. The remainder were surrounded and fighting against great odds.

The Indians are non-treaty Nez Perces, with other disaffected tribes, numbering some 2,000. The general opinion of the uprising is that savages intend to devastate the whole country. The people are filled with alarm.

The Indians are massacreing men, women and children at Camas Prarie, and the settlers are fleeing for their lives. The military forces are inadequate.

Lewiston advices of latest date state that Gen. McDowell had telegraphed for speedy assistance. Governor Chadwick has been applied to for arms.

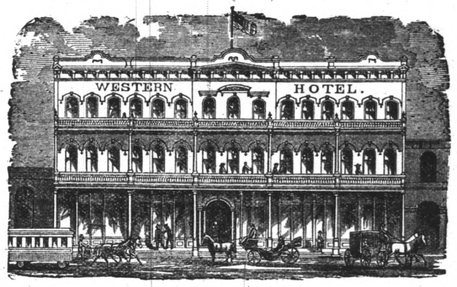
WESTERN HOTEL,

SACRAMENTO.



THIS NOW COMMODIOUS AND ELEGANT HOTEL—THE MOST ROOMY AND imposing in the city—was rebuilt, remodeled and improved thoughout in the Summer of 1875, under the direction of WM. LAND, the present proprietor, who placed in it all the improved modern conveniences, and furnished it so complete that none in the city CAN EQUAL IT. It has a frontage on K street of 120 feet, extending back 160 feet, and is three stories high in addition to the Basement, which is used for the Laundry, Boilers, Steamer, Storerooms, Bakery etc. The Hotel HAS A COMMODIOUS OFFICE AND READING ROOM, and contains an ELEVATOR by which guests may ascend and descend to and from the upper stories. ITS FACILITIES FOR ESCAPE FROM FIRE ARE COMPLETE, there being FIVE means of escape from the upper stories of the building—by the rear as well as the front. It has **185** SLEEPING ROOMS, all well lighted and ventilated, there being but 7 dark rooms in the house, and these are connected with Parlors. The Spacious Dining Room will accommodate **250** people at one time.

The Western Hotel gives the best Meal for 25 cents to be had anywhere.

☞ It is convenient to routes of travel, being only one block from the Railroad Depot and Steamboat Landing.

BOARD AND LODGING, $1 TO $1.50 PER DAY. MEALS, 25 CENTS.

FREE COACH TO THE HOTEL. Exchange Office, Bath Rooms, Barber Shop and Laundry in the House. ☞ Shower Baths FREE to Guests.

Town and County Matters

Woodland in the Morning.

Few localities on earth, if indeed any, are more blessed with lovely mornings than our own beautiful Woodland. Situated on a broad plain in the heart of the great Sacramento Valley, one of the most productive regions on the globe, with the Sierra Nevada Mountains on the east and the Coast Range on the west, and embowered in a grove of thrifty, spreading oaks, extending northward for miles, it is naturally a lovely spot—and well suited for the location of a town of goodly proportions and which may at a day not very far in the future assume all the characteristics of a city, having already many of them—to start with, a population of some 4,000; an ably managed town incorporation, a well established college, good public schools, water and gas companies, fine streets, the principle ones being well graded, graveled and lighted; a first-class fire department with steam engine, hook and ladder apparatus, etc., all paid for, the town out of debt and money on hand—these are a few of the things which make it desirable as a place of residence. But its climate is one of the chief attractions—pleasant during the whole year, with perhaps about a month of extreme warm weather (at mid-day only, however,) and another month of wet weather in winter time—just enough to make humanity appreciate its good, and in the main unusually pleasant, climate.

But our object at this time is to speak particularly of the lovely mornings with which this locality is blessed. The sun through the summer months uniformly rises clear. Such a thing as fog is not known. The thermometer marks about 60 degrees. Soon after four the birds begin to sing and continue to fill the air with their melody till long after sunrise, so that people are generally awakened by their cheerful music. What can be more pleasant and healthful than a ride or an appetising walk of an hour under such exhilarating circumstances? And with an occasional exception, when the north wind may be too strong to be pleasant, this health-giving and spirits-enlivening exercise may be enjoyed throughout all our long summer, from March or April until October or November. The roads being somewhat dusty is the only inconvenience or anoyance that we are aware of, and even that is very rarely froublesome early in the morning. Toward nine or ten o'clock it gets warm and remains so to a greater or less degree till toward sundown. The prevailing winds are from the South and waft us the cool atmosphere from the Bay. For healthfulness no locality can surpass Woodland and Yolo county generally. There are no reptiles or wild beasts to annoy the timid except on the low lands or in the mountains. The people are generally hospitable, nearly all in well-to-do circumstances, and all *may* prosper if they will be industrious and economical. Under these circumstances we feel justified in saying that there is not a more desirable place on the Pacific Coast in which to locate than our own beautiful and pleasant Woodland.

New Wagon, Carriage and Blacksmith Shop.

Messrs. Beach & Knox are fitting their carriage and blacksmith shop in Dietz & Burns' new building, corner of Main and Second streets, preparatory to moving into it. They have put in three forges and three woodworker's benches. It will make them a first-class workshop when completed, with the paint shop in the second story. They will move in during the present month. This firm has done a large and increasing business during the last three years, and in their new location will doubtless turn out more work than ever.

Serenade.

We were awakened on Saturday night just before the we sma' hours, by soft, delicious strains of music, as from fairy land; but on fully realizing the situation found it to be a reality; that near our window were a party of our own townsmen consisting of Messrs. Beach, Simpson, Summers, Peak and Dinzler, who from clarionet, cornet, violin, guitar and banjo were delighting our sense of hearing with their soft melodious strains. Such kindly notice is not easily forgotten. Afterward we slept, dreaming of music, and feeling its softening influence during the cool, calm morning hours.

Shooting Affray.

A shooting affray occurred near Davisville on Thursday last, but fortunately did not terminate very seriously. John Ward and one Snider had some difficulty, the particulars of which have not transpired. On Thursday, however Snider shot at Ward while the latter was passing his house, wounding him slightly and his horse seriously. Ward proceeded to Davisville and swore out a warrant for Snider's arrest but before it was served, Snider appeared and gave himself up to await examination.

Woodland Races.

The proprietor of the Woodland Race Track offers a purse of $250 for two-year-old colts, to be trôted over the Woodland track on Saturday, October 20th, open to all two-year-old colts owned on May 1st, 1877, in Colusa, Yuba, Sutter and Yolo counties. Entries to close on July 4th, 1877. Colts are to be named and described on or before September 1st. Entrance $30; $20 to be paid at the time of entry, balance on the day before the race. Mile heats, two in three, to be trotted to rule; five to enter and three to start.

Madison.

Business is quite lively in our neighboring town of Madison. Wheat is coming in quite briskly. Six car loads were sent off on Friday, and three on Saturday. An addition is being made to the Hotel in order to accomodate the traveling public. Lumber is going off rapidly, the convenience of getting it so near stimulating the people to use more of it than ever before. All that can be ascertained of events transpiring at Madison will be laid before our readers from time to time.

Republican Candidates.

In reply to the Winters *Advocate's* inquiries, the *Mail* gives the following as "all it knows about the Republican candidates in this county: For State Senator, Charles F. Reed and A. E. Wagstaff; for Assemblyman, H. W. Atwell; County Clerk, D. M. Burns and E. E. Perkins; Sheriff, Carey Barney; Recorder, J. A. Hiller. *The people* have not made any choice as yet for Treasurer, District Attorney, School Superintendent, Surveyor, Coroner, or Public Administrator."

Trial of the New Hydrants.

The firemen had the steam fire engine out Tuesday afternoon according to notice, and it was found she worked splendidly. The four-inch water mains are not large enough to supply her under a full head of steam, and consequently there was a good deal of sputtering when taking water direct from the new hydrants, as considerable air was drawn in with the water. Still, those hydrants would be of immense advantage in case of fire.

Pants Lost.

A letter received from Bartlett Springs on Tuesday states that the night before some manraders went through the Woodland crowd for all they could find and succeeded in getting away with about twenty dollars in coin, also carrying off a pair of pants belonging to J. D. Lawson, who is in a quandary to know how he is to get home minus breeches.

Items from Winters.

WINTERS, June, 15th, 1877.

The Blum & Co. store robbery last Wednesday night amounted to over $400 worth of clothing, by parties unknown. Officers are out, and it is reported that some Chinamen have been arrested in Putah Cañon with some of the clothing.

A Chinaman was arrested Tuesday evening by Constable Warmack with a large lot of unstamped matches in his possession. He has been sent below.

V. Morris, manager of the Grangers' Warehouse, is suffering seriously from a rising on the hand.

Crops are falling rather short of expectations in this vicinity.

Supervisor Wm. Sims is spoken of for the Assembly. Mr. Sims would make a good Representative, but we would lose a good Supervisor if he should be chosen to the Legislature.

We are having pleasant days after the hot spell.

The Occidental Hotel has been closed.

Grain is coming in from the ranges quite lively for so early in the season.

A large amount of vegetables and fruit are being shipped from this place.

Business is quite lively here for so dull a season. Yours, ORLAND.

We take the following items from the *Advocate* of the 16th:

Venable Morris is suffering severely in one of his hands. Some time since it was bruised, and recently erysipelas has set in.

Thirteen tons of new wheat from R. M. Bennett's ranch, six miles east of Winters, were shipped from our depot on Wednesday and Thursday last.

The races of the Davisville Jockey Club will take place on the 21st and 22d inst.

A young son of Dick Ely fell into the cellar of Mr. Clark's house, on Railroad street on Wednesday last, and was badly bruised.

Messrs. Paine, Spear, Miller and Huber, have taken the contract to enlarge the Hilliker Hotel at Madison.

We are in receipt of a communication from "A Friend to Justice," among other matters recommending P. J. McGrath as a candidate for the office of Sheriff of Yolo county. What the writer says of Mr. McG. is strictly true, and should he be nominated we shall accord him that meed of support we shall render to any candidate nominated by the Democratic County Convention.

Ten Chinamen engaged in catching fish in Putah Creek by a poisoning process, were brought before Justice Haise on Saturday last with a couple of baskets filled with fish from three inches in length to larger sized. They were fined $10 each, except one of the gang who acted as boss, and who was fined $25 for resisting an officer. Four of them paid their fines, and the remainder were being carried to Woodland to serve out their fines in the chain gang, but on their way took a second thought, paid their fines and were discharged.

Peculiar Poisoning Case.

On Friday last Mrs. J. W. Peek and daughter, of Woodland, went to Sacramento on the morning train and took breakfast with Mrs. McCleary, an old acquaintance, who formerly resided in Woodland, and whose husband, a well known druggist, is still a resident here. Mrs. McCleary and Miss Peek only took tea, all the others at the table taking coffee. No sooner had the tea been taken than it caused peculiar symptoms of sickness, and very soon after vometing and the other usual effects produced by poisoning. Physicians were summoned immediately, and Messrs. McCleary and Peek telegraphed to go over on the next train. The doctors could hardly tell what to make of the matter, but at once recognized poisoning from some cause. It seemed that green tea had been used, and as the only persons affected were the ones who had taken tea for breakfast, the conclusion was arrived at that the poisoning was caused by the tea. There was no Chinaman or other servant around to cause suspicion. Mrs. McCleary prepared the tea herself and was much the most affected of the two sufferers; indeed, at last accounts she was in a critical condition. Miss Peak, however, rallied sufficiently to come home with her father Friday night. The probability is that the poisoning was caused by the green tea, which is dried on copper plates in curing, but in this case there must have been more of the copper mixed with the tea than usual. As there is more of the same sort left in the house, Mr. McCleary, who is himself a thorough chemist, will test the article and ascertain if the difficulty lies there. Cases of this kind have occurred before from this cause, and it is most likely, the physicians think, that the tea is at the bottom of the trouble.

Irrigating—Tampering with the Water.

This is the season for irrigation in the "alfalfa region" of our county. The Moore Ditch is furnishing abundant water, and nearly all the fields within reach have had the benefit of it. But some farmers who buy water and attempt to use it have difficulty. There are numerous pilferers and water thieves in the community, and a person can scarcely turn his back or go to dinner but these water thieves are on the watch and turn the water on their premises, leaving the purchaser to pay for what they had stolen. It is dangerous to contract for the use of water in the night time for this reason. It is generally understood that it is half-grown boys who do this mean work by raising gates, etc. If it is the father who prompts them to do the deed, I hope such father my be convicted of felony and sentenced to the Penitentiary; if the mother, let her alone, and may it do her much good. FARMER.

The Fourth in Sacramento.

The following communication was received by us on Wednesday with the request to publish:

HEADQ'TRS 4TH JULY CELEBRATION COM., SACRAMENTO, June 12th, 1877.

Citizens of Woodland and Yolo County:—You are cordially invited to unite with the citizens of the City of Sacramento in the celebration of the 101st Anniversary of our National Independence. There will be a grand procession together with the usual literary exercises. Hon. Newton Booth will be the Orator of the Day. An early reply is desired.

Very Respectfully,

J. N. Young, C. T. Jones, W. A. Anderson, Christopher Green, W. R. Cantwell, J. T. Griffitts, E. A. Rockwell, Committee of Invitation.

Tramps.

If a man loafs around town waiting for a chance to get work he is a "bummer" and becomes a "beat." If he shoulders his blankets and travels, looking for a job, he is stigmatized as a "tramp." Don't do it. How many Pioneers in this State are there who have not packed their blankets at some time? Don't stigmatize with a disgraceful epithet the honest man who shoulders his blankets and hunts for a job. PIONEER.

Sample Copies.

Sample copies of the WOODLAND DAILY DEMOCRAT have been sent to quite a number who have not ordered it, at which we trust none will take offence. If they would like to take it, however, we shall be pleased to enter their names upon our books. Many who live in and near town will doubtless prefer to take the Daily in place of the Weekly, which change we shall be pleased to have them make if they will just inform us or the carrier.

Davisville Races.

The races to come off at Davisville June 21st and 22d have all filled, and the Club anticipate a good time and a large attendance, as there are horses entered from Knights Landing, Woodland and Dixon. We have made arrangements to let our readers know the result of the races on the different days.

Secretary Sherman informs financial gentlemen that the President and himself had talked over the financial question fully, and they were found to be in perfect accord, the President endorsing the policy now pursued by the Secretary.

Fifteen of the States now have Republican Governors, and twenty-three Democratic Governors.

In the Justice's Court on Saturday an inebriate was sentenced to twenty days in jail for indecent conduct.

Attention is called to the notice to creditors in the settlement of the estate of W. W. Montgomery deceased.

Mrs. Davidson, at the Palace Restaurant, keeps ice-cream on hand for the accommodation of guests this hot weather.

Read & Simpson have just opened their new stock of clothing, dress goods, etc., suitable to the wants of all their customers.

H. M. Hoyt, candidate for County Clerk, and J. T. Lillard, candidate for Sheriff, both on the Democratic side, were in town on Friday.

The residence of G. W. Hunt was handsomely decorated with flags this morning. A new flag pole has been erected on the adjacent lot.

Editing a paper is like carrying an umbrella on a windy day—every body thinks they could manage it better than the one who has hold of the handle.

Since Mr. Ludden of the firm of Ludden and Forrester returned from the bay their goods have been arriving daily. They are now ready for inspection.

The *Mail* says it has been ascertained, after a thorough investigation, that the Republican party of Yolo county do propose running a full ticket this year.

If any of our friends in the country desire to have the DAILY DEMOCRAT mailed to them, all they have to do is to send word in some way and it will be forwarded forthwith.

A little set-to occurred between a couple of attorneys in the Justice's Court on Saturday last but which was settled amicably afterward, and all went merry as a marriage bell.

At the machine shops of Byron Jackson they now make brass castings of all kinds. The stoppers for the new fire hydrants were made there, and are evidence of good workmanship.

The Rev. A. L. Gibbons, D. D., President of the University of the Pacific, of San Jose, will preach in the M. E. Church, Woodland, Sunday, June 24th, morning and evening. All are invited to hear him.

Prosecuting Attorney Baker and W. M. DeWitt Esq., went to Davisville Tuesday morning to conduct the prosecution of Snider for shooting at Jack Ward the other day while passing Snider's house on horseback.

A negro at the Hospital who was injured some months ago while working for Supervisor J. H. Harlan, by a harrow falling over one of his legs, on Saturday had to have the injured limb amputated in order to save his life.

Rev. Joseph Lanman, who has been spending a short time at Santa Barbara, will return this week to Woodland. The Congregational Church will be reopened on Sunday next for services at 11 A.M. and 8 P.M. Preaching by Mr. Lanman.

The following persons form a camping party and start for Big Meadows Tuesday morning: Misses Genoa Lawson and Florence Goin, Mrs. John Goin, and Messrs. John, Jeff and Mack Goin. Their object is recreation and pleasure.

Messrs. J. H. Lovell and C. R. Allen have purchased the blacksmithing and wagon shop of David Gordon at Capay. They are both practical and industrious workmen and will be a valuable addition to the village and to that part of the county.

There is a great improvement in the weather, the last three days having been cool and pleasant. It gets warm at midday of course, the thermometer not ranging over 80 to 90 degrees at the bottest, while the mornings, evenings and nights are cool enough.

Andrew Nobes, the German who was sunstruck last week, on the Bemmerly ranch in Hungry Hollow, is lying in a peculiar condition, not having the possession of his faculties. He does not seem to get worse or better, takes scarcely any nourishment and has to be watched continually.

Not the slighest clue has been obtained as to the identity of the would-be abductor who entered a young lady's bed chamber last Monday night in Woodland and boldly carried her a hundred feet from the house, but was scared off by her screams and the approach of neighbors.

The Chinamen arrested on Friday night by Deputy Constable for disturbing the peace, were tried and acquitted. A white man arrested for the same offence at the same place by policemen Holland and Marders, was sentenced to pay a fine of fifteen dollars in default of which he was committed to jail for fifteen days.

LETTER FROM LOMPOC.

LOMPOC, CAL., June 13th, 1877.

EDITOR DEMOCRAT:—I gave you an account of my trip here and now I will tell you something about Lompoc Valley. It is in Santa Barbara county, about sixty miles from Santa Barbara City. The valley is about six miles wide and twelve long, running right down to the sea shore, and surrounded on three sides by mountains. Considering the fact that less than four inches of rain fell during the entire Winter and Spring, it has produced well. I have seen over thirty tons of hay cut from about twelve acres, actual weight, and I have seen several fields better than that. In one field, the rent of which was to be paid by a certain portion of the crop, they weighed several shocks of the hay to average it for division, and it averaged seven tons to the acre. There are several fields of as good barley as I ever saw, I think, and some good wheat crops. One man has cut his barley for hay, and is now sowing another crop of barley on the same ground and expects to have as good a crop as the first. There will be a good crop of potatoes raised here this season also.

The climate is splendid here, there being a cool breeze almost every day from the sea. I have failed to get into any business here at present, but think there will be an opening for me this Fall. If so, I may come back, as I like this place very much. I leave to-morrow for Santa Barbara. Will write again from time to time. Yours Trûly, H.

George P. Rowell & Co.

Deserve the best thanks of the advertising community for their efforts to prevent advertisers from being imposed on by unscrupulous publishers. Every honest publisher will also thank them for the aid they have afforded them in maintaining their competition for business by fair means, against the unfair practices of rivals. Messrs. Rowell & Co. have had the courage to undertake the task of discriminating among the statements of news papers, and to face the hostility which such a course was sure to excite. Notwithstanding the "crushing" articles that from time to time have been hurled at them, sometimes by parties who ought to have known better, they have persevered in their course, and they have had their reward. Their publication has taken its place as a standard authority among American Newspaper Directories, and a reference book for every large advertiser and advertising agency in this country.—*Jersey City Journal, May 22, 1877.*

Solano County Items.

From the Dixon *Tribune* of the 16th we extract the following items of interest:

There is some prospect of a visit from the tenting party of the First Day Adventists who have been laboring at Suisun.

J. H. Cole, the blacksmith, formerly of Dixon, was one of the sufferers by the $30,000 fire at Williams Tuesday night, losing his shop and stock.

On the night of June 9th, the house of Mrs. Davis, a widow living on Grand Island seven miles from Rio Vista, was totally destroyed by fire. Loss $700 or $800.

The county assessment roll for this year will foot up about the same as last year. Agricultural land is being assessed generally a little higher than it was last year.

Mr. Davis, of Binghamton, is one of the few farmers whose grain is turning out far above the estimated yield. He is said to have a splendid crop—more than was ever raised on the land before.

The wheat field of Ed. McGary, near Bridgeport, was set on fire by a spark from a locomotive, Thursday afternoon, and in a short time was all consumed. The tract consisted of between 200 and 300 acres of wheat, averaging about thirty bushels to the acre.

Following are the receipts of new wheat at the principal points in this vicinity up to Thursday afternoon: Vacaville, 400 tons; Winters, 99 tons; Davisville, 30 sacks; (3,854 pounds;) Batavia, 333 sacks; Dixon, 125 tons at Hill's warehouse and 190 sacks at Eppinger & Co's.

We are all in the height of the harvest season, and since last week threshing has commenced in earnest. A good deal of complaint is heard that grain is not turning out quite equal to expectation. In nearly all cases it is considerably shrunken, and frequently very very badly so.

The improvements in the public school house will be finished next week. The Trustees have elected the following corps of teachers: Prof. A. G. Brown, Principal; J. V. Chapman, Intermediate Department; Miss Ella Hovey, First Grade Primary; Miss Alice Wells, Second Grade Primary.

Hazlitt, the "Pilgrim" printer, who has just been released from the Yolo county jail, struck Dixon on the 9th inst. Of course, he inflicted himself on the *Tribune* office, did $2.00 worth of "distributing," got paid $4.00 for it, and then pushed on to Vallejo to bleed somebody else in the craft. He is becoming an exaggerated nuisance.

The Adventist elders will take down their tent Monday, or a day or two later. Before leaving town, however, they will organize a Church society in Dixon. There are between twenty and thirty adults, mostly farmers and members of their families living in different directions from town, who profess belief in the Adventist doctrines and are keeping the Sabbath instead of Sunday.

Colusa Items.

From the *Sun* of the 16th we gather the following:

The County Board of Equalization will meet on the first Monday in July, and continue in session three weeks.

Rev. Wallrath is now Pastor of the Catholic Church at Colusa, and Father O'Donnell, the former Pastor, has gone to Waverville. Father Wallrath is a gentleman of fine ability and will do much good at Colusa. He is publishing the *Catholic Parents' Friend*, an educational magazine.

This community was shocked on Friday of last week on learning of the sudden death of L. E. Hamilton. He had been confined to his bed but a day or so, and no one was expecting it.

On Tuesday morning the body of a Chinaman, named Charles Hooe, was found in his cabin on the opposite side of the river. The body presented a frightful appearance; deep wounds having been inflicted with a hatchet, or some other sharp instrument, on the head and neck. It is thought the unfortunate man was murdered while at the table eating his breakfast.

The Spirit of the Russian People.

The money offerings of the Russian people in aid of the war are significant. The very day the Czar's manifesto was published the Duma, or Town Council, of Moscow voted a sum of 1,500,000 roubles ($1,000,000) for war purposes and for the care of the wounded. Subscription lists were opened at once by the wealthiest nobles and merchants of the city, and were covered in a few days by hundreds of signatures, which produced also over a million of roubles. The example of "old mother Moscow" was followed by St. Petersburg, whose Town Council voted a million of roubles in a few days. Last, but not least, come the humble offerings of the peasants. Money and requisites for the wounded are reported as pouring from all parts of the country, and the offerings of the village laborers especially amounted in four days to the sum of 50,000 roubles. All money and materials for the wounded soldiers are forwarded to the Red Cross Society, which is connected with the International Geneva Association, and has ramifications throughout the whole country. The voluntary offerings of the nation in all forms during the first week of the war amounted to at least $4,500,000.

Shipping Fruit to the East.

On the 8th instant, says the *Call*, the first car-load of California Fruit shipped overland this season, was started by I. Allegretti for New York. The car contained 349 boxes Peaches, 295 boxes Apricots and a quantity of Cherries and Cherry Plums. The car goes by freight train and is expected to be twenty days on the road, and yet turn out the fruit in perfect order. The car is fitted with the Allegretti patent refrigerator, which has been in successful use for conveying perishable goods between various points in the United States for two years past. The inventor came to California last Autumn, and at that time shipped two car-loads of Grapes to New York by slow freight, and although nineteen days on the way, both arrived in good condition and returned a large profit on the venture. Mr. Allegretti at that time made himself acquainted with the unbounded fruit resources of the State, and became convinced that California offered a field of operation for his refrigerator unequalled anywhere else in the country. He is now having constructed at Philadelphia a large number of cars, with which an extensive trade across the continent will be inaugurated this season.

Another Mexican Revolution.

By the Pacific Mail steamship China from Panama, which arrived on the 15th, we have tidings of another revolution in Mexico, Alvarez is represented to have captured the city of Acapulco, and installed the officers of the Lerdo Government. Very little resistance was offered by the followers of Diaz, and at last accounts Governor Alvarez, sustained by 1,000 Indian soldierrs, was in quiet possession of the port. Several followers of Lerdo, who were compelled to flee from Mexico and take refuge in another country on the accession of Diaz to power, have left San Francisco.

MISS MOLLIE MURPHY, successor to Mrs. R. W. Murphy, 165 J Street, Sacramento, is constantly receiving new novelties in Millinery, Straw Goods, fine Flowers, etc., from New York and Europe. Special attention paid to orders sent directly to her. Ladies would do well to try for themselves, and satisfaction will be guaranteed. 29

THESE ARE DULL TIMES, but you can get large-size Pictures in the finest styles, at greatly reduced prices, at J. ASHER'S, 236 J street, between 8th and 9th, Sacramento. 20

HENRY K. BOND, of Jefferson, Maine, was cured of spitting blood, soreness and weakness of the stomach, by the use of "Johnson's Anodyne Liniment" internally.

A WANT has been felt and expressed by physicians for a safe and reliable purgative. Such a want is now supplied in "Parson's Purgative Pills."

The match race at Jerome Park, New York, June 18th, between Cloverbrook and Bazil, mile and a quarter, for $5,000 a side, was won by Bazil. Time—2:12¼.

ALTA, August 28.

MESSRS. PITCHER & PALMER:—*Gentlemen:*—Our truckmen have been using your Patent Petroleum Axle Grease for the past six months, and they are unanimous in the opinion that it excels any other axle grease they have ever used. They have always used Hucks & Lambert's, but now prefer yours.

F. B. TILLOTSON, Bear River Mills Co.

Coughs and Colds.

From Samuel A. Walker, Esq., the well-known Real Estate Auctioneer of Boston.

"Having experienced results of a satisfactory character from the use of WISTAR'S BALSAM OF WILD CHERRY, in cases of severe colds during the past two years, I have full faith in its renovating power. I was first induced to try this medicine by the strong recommendation of a friend, who was well-nigh gone with consumption, and whose relief from the use of it satisfied me of its great value in cases of colds and decline, and most clearly demonstrated to my mind its great value as a restorative, that only needs a fair trial to insure a grateful recognition from the public. Sold by all druggists.

Armed to the Teeth,

Is a very common expression, but we think that armed to embellish and preserve them to a ripe old age is decidedly more appropriate. This can be done by keeping yourself supplied with a bottle of that splendid dentifrice, Fragrant SOZODONT, which will beautify the teeth and preserve them from the ravages of decay. SOZODONT contains no acid or gritty substances which injure the enamel, but is composed of rare and antiseptic herbs, which have a beneficial effect on the whole economy of the mouth. Sold by druggists.

Important to all Invalids. Iron in the Blood.

THE PERUVIAN SYRUP, a protected solution of the protoxide of iron, strikes at the root of disease by supplying the blood with its vital principle, or life element—Iron. This is the secret of the wonderful success of this remedy in curing Dyspepsia, Liver Complaint, Dropsy, Chronic Diarrhœa, Boils, Nervous Affections, Chills and Fevers, Humors, Loss of Constitutional Vigor, Diseases of the Kidneys and Bladder, Female Complaints, and all diseases originating in a bad state of the blood, or accompanied by debility or a low state of the system. Sold by all druggists.

The Yolo Democrat

Thursday, June 21st, 1877.

General News Items.

The receipts of the Pope from his Jubilee were $325,000 in coin, besides other gifts.

The thermometer one hundred in the shade in San Francisco is something very unusual.

The El Dorado Democratic Convention has been called for June 26th, to nominate a county ticket.

Captain Dahlman & Co., clothiers of New York and San Francisco, have failed. Liabilities, $200,000.

The tobacco daily used in New York city costs more than the bread which is eaten in the same time.

James Carroll the telegraph operator of Cloverdale died in that place on June 4th with typhoid fever.

Returns from 53 counties in Georgia give 3,000 majority in favor of calling a Reform Constitutional Convention.

The first new wheat of the season was delivered at South Vallejo Saturday from Colusa. It is of a quite plump grain.

An attempt was made to assassinate Captain Gregory near San Diego on Saturday, he being shot through the thigh and wrist.

The Gold Hill *News* says Virginia City is filled with poor people who require assistance in order to keep soul and body together.

The five condemned murderers of the Pennsylvania Molly McGuire League are to be hanged at Pottsville Jail, on the 21st instant.

The talk now is among the railroad people that the road will be ready for operation between Oakland and Martinez by the middle of August.

Dr. Linderman will recommend in his annual report the coinage of a two-dollar gold piece, to take the place of the two-dollar-and-a-half piece.

Virginia City has now a population of about twenty-five thousand, including one-half the whole number of voters in the State of Nevada.

At Grass Valley, two Chinamen were riding a mule, which so enraged a steer that he charged upon the outfit and tumbled all three down a grade of about 150 feet.

The Democratic County Central Committee of Sonoma County ordered Democratic primaries meetings on Saturday, July 14th, and a County Convention Thursday, July 19th.

A general China row occurred in Mendocino last week, when Ching Young promiscuously used his dirk on his dusky companions. The Grand Jury found an indictment against him.

The heat of the past four days has been exceedingly disastrous to fruit throughout Alameda county. The cherry orchards at and near San Lorenzo have suffered to a great extent.

There was attached to Thursday's express train for the East, Budd Doble's horse car, conveying the queen of the turf, Goldsmith Maid, and also Bodine and E. J. Baldwin's horse Vulcan.

Shad, says the *Bee*, have been caught in considerable numbers above Sacramento this season, which proves that the shad crop sown some time ago is in a fair way to yield a good harvest.

There are nine candidates for Sheriff of Yuba county announced in the *Appeal* besides a probably equal number whose modesty prevents them from being known until the conventions meet.

William Vaughn, working in Drew's lumber yard, at South Vallejo, had a sunstroke Tuesday afternoon, and a physician was telegraphed for. We cannot learn how serious the attack is.

The steamer City of Peking, which arrived Saturday from Hongkong, brought a fresh invoice of over 1,000 Chinamen making a total of nearly 4,000 of the heathen landed at this port within a month.

The Chico *Record* says: Dr. Pratt's Hotel a Big Meadows is approaching completion and when finished will be the model of the mountains. He hopes to have it ready for occupation by the first of July.

It is said that General Sherman favors making Washington a permanent military post, and wants it garrisoned with seven-hundred men. That is a very small bodyguard for our noble President.

At Halleck Station, Nevada, June 8th, a young man named Jas. Fennerty, son of the late Justice Fennerty, was shot through the right breast and instantly killed by a one-eyed negro named Sam. Mills.

Pixley's paper, the *Argonaut*, in speaking of the Pinney-Carr-Page-Sargent muddle, says: "Pinney is dodging the State Prison, Sargent, Carr and Page are dodging the *Chronicle*, and they are dodging public opinion."

James Lewis, a negro, has been commissioned a Naval Officer at New Orleans. Col. Jack Warton has been officially notified of his appointment as United States Marshal for Louisiana, vice Pitkin, suspended.

As we go to press, says the Ukiah *Dispatch* of June 9th, we understand there has been a row at Cuffey's Cove. Wm. McManus and Frank Vines were arrested for robbing and shooting a Chinaman on Sunday last.

A mortgage, executed by the California Pacific road in favor of D. D. Colton and Stephen T. Gage, to secure the payment of bonds to the amount of three millions of dollars, was recorded in Napa county on Monday last.

Mrs. Belle Lynch, of the Ukiah *Dispatch*, was arrested Saturday morning on a criminal charge of libel by T. L. Carothers. Bonds were given to appear before the Grand Jury in September, and Mrs. Lynch was discharged.

The *Examiner* thinks if there should be an election in Pennsylvania to-day, the Democratic majority would not be less than thirty thousand, and might be fifty thousand. It is astonishing how rapidly the Democratic party is integrating.

The Chamberlain Administration in South Carolina paid $250,000 for public printing which the Hampton Government gets done for $10,000. This is enough to start the heart of ex-Governor Hayes to bleeding afresh for the poor black man.

Wheat harvesting is now in full operation in Texas, and the crop is said to be very fine, yielding from thirty to forty, and in some cases as high as forty-five bushels to the acre, weighing from sixty-three to sixty-five pounds to the measured bushel.

The Napa *Register* says: Several typographical errors in yesterday's paper, such as "accessive" for "excessive," "modertaion" for "moderation," "bombarn" for "bombard," may be attributed to the heat." Reader will you kindly do so with us?

The Solano *Times* says: Ah Choy is the name of a Chinaman who resides in the vicinity of Vacaville, and who owns a fruit orchard. He is making heavier shipments of fruit to San Francisco, via. Vallejo, than any other fruit man on the line of the railroad.

The dwelling house of Mr. Antone Silva, of Jackson, Amador county, was entirely destroyed by fire last Wednesday night, together with all its contents, consisting of furniture, clothing, provisions, jewelry and other valuables. It is not known how the fire originated.

The N. Y. *Tribune* June 9th, says: California only had 60,000 tons of wheat for export last year, and a partial failure of the present crop makes it probable that the surplus of 1877 will be only 150,000 tons. All indications point to a strong market and high prices for grain next winter.

The following are the nominations made by the Democracy, under the "Crawford plan," in Stanislaus county: For Assembly, A. S. Fulkerth; Clerk, John W. McCarthy; Recorder, John McCor; Treasurer, Geo. W. Tombs; District Attorney, C. C. Wright; School Superintendent, W. H. Robinson; Surveyor, R. B. Robinson.

The *Mail* says Louis Provost drove a horse attached to a buggy from the Landing to Dunnigan's on Sunday in the cool of the evening, and the horse died soon after having arrived at the latter place.

The charges preferred by W. B. Carr against Pinney, the *Bee* says, have in the light of investigation fallen off in number to such an extent that his total amount of bail is reduced from an aggregate of $169,000 to $35,000.

The Santa Rosa *Democrat* says that on the 7th inst., at 4 P.M., Mr. Wallace, of the lumber firm of Hanson, Ackerman & Co., San Francisco, was bitten by a scorpion, near Cloverdale, and at 6 o'clock the next morning was a corpse.

Bailey, U. S. Consul at Hongkong, reports that the number of Chinese who left that port for the United States during the year ending December 31, 1876, was 5,634 less than the previous year, and that only 52 of the emigrants were women.

The sea holds 60,000,000,000,000,000 tons of salt. Should the sea be dried up, there would be a deposit of salt over the entire bottom of the ocean 450 feet deep, and if the salt were taken and spread on the land it would cover it to a depth of 900 feet.

The Santa Rosa *Democrat* denies the telegraphed statement in the *Chronicle* that there were six cases of sun-stroke at that place during the late heated term, and that the thermometer marked 120° in the shade. Nobody this way believed it.

Sacramento is to have a grand Fourth of July celebration, with parade, literary exercises, and fireworks in the evening. Senator Newton Booth will deliver the oration, and Adjutant-General Walsh will act as Grand Marshal. There will be a large attendance from the surrounding towns and country.

Several English railroad companies are noted for the fast time made by their locomotives. One, for instance, has made a run equal to 78 miles an hour, another 75, and others, 72, 70, 69, 68, etc. Mr. Patrick Sterling, of the Great Northern, took 16 carriages 15 miles in 12 minutes, equal to 75 miles an hour.

The town of Harlem, opposite Kansas City, is six feet under water, and is likely to be entirely destroyed. All the railroads in the vicinity are greatly damaged by washouts or submerged tracks. The people living on the bottoms along the river are moving to the bluffs, taking what property they can with them.

The California State Dental Association has elected officers for the ensuing year as follows: W. B. Kingsbury, of Santa Clara, President; C. S. Lane, of Napa, Vice President; H. J. Plomteaux, Oakland, Recording Secretary; S. E. Goe, of San Francisco, Corresponding Secretary; T. J. Birge, Treasurer; H. E. Knox, Librarian.

The streets of London, if placed in one line, would form an avenue of 7,000 miles in length In the daily cleaning of the streets about 14,000 men find employment, and 6,000 horses and 2,400 carts. The engineer-in-chief has a salary of £2,000. The work goes on day and night but the actual sweeping does not commence until 8 P.M.

The Chicago *Tribune*, Hayes Radical, says: It is difficult to conceive of anything in worse taste than the delivery of a partisan and inflammatory political harangue on the occasion of decorating soldiers' graves. Yet ex-Secretary Boutwell was guilty of this offence against decency and propriety in making the address at Barnstable, Mass.

F. X. Cicott, Coiner at the San Francisco Mint, furnishes the *Call* a statement of operations in his department for the past fiscal year. Coining was commenced after the last settlement on the 5th of July, 1876, and operations for the year closed June 9th. The weight of metal manipulation during the period was 60 tons of gold and 393 tons of silver.

The *Tribune* says: The bloody-shirt outrage in Louisiana has dwindled with unusual rapidity. Instead of being assassinated by a body of men, to-wit, bull-dosers, Laws was killed by one man, who is now in jail, and the murder is the result of a family feud. It will be difficult to start the outrage-mill on a paying basis with so poor a grist as this.

The melancholy Detroit *Post*, full of evil presentiments, says: "It will not escape attention that, as soon as the President's Southern policy was set up in South Carolina and Louisiana, Parson Brownlow, the Union leader in East Tennessee, lay down and died, while Alexander H. Stephens, ex-Vice President of the Confederacy, got up and lived."

When each of the words of which a compound is formed retains its original accent, they should be united with a hyphen. As laughter-loving, good-natured, twenty-one, glass-house, one's-self. When the compound word has only one accent, its parts are consolidated, being written or printed without the hyphen: As bookseller, watchmaker, lapdog, himself.

The north winds we have in this valley in the Spring and Summer are very disagreeable at the time, says the Colusa *Sun*, but they are held by many to be absolutely necessary to the health of the country. It is certainly full of electricity, and it is held that it stirs up and dries up all malaria. One thing is certain—we have more sickness during those seasons in which we have but little north wind.

We learn from the Dixon *Tribune* that on last Tuesday afternoon George Frahm of that place, proprietor of the City Hotel, met with an accident while out in the country with a team belonging to Mr. Eppinger. The horses started suddenly at a moment when he was standing between the wheels, knocking him down and dragging one wheel over his body, but without inflicting any serious injury. The team was brought safely into town.

The Napa *Register* of June 12th gave an account of the murder, by an Indian named Andress Matteyo, of William Perkins and an Indian named Waudaloupa, battering their brains out. Coroner Colman held an inquest over the dead bodies, and the murderer, having been arrested, admitted that he killed both the men, saying that Perkins struck him and Waudaloupa threw stones at him.

The Republicans of Tehama county made their nominations on the Crawford plan, and the following is the ticket: Sheriff, E. S. Cushing; Clerk, D. B. Lyon; Treasurer, Chas. R. Mayhew; District Attorney, Jerome Banks; Superintendent Schools, Edward Sweeney; Surveyor, Frank J. Nugent; Coroner and Administrator, C. A. Comstock; Supervisors, District 1 and 2, Jacob Rambo and Andrew Simpson.

During the year ending with June last, there were taken up under the homestead law, 1,875,900 acres of land. There were sold during the year 640,961 acres for cash, and 127,640 acres were allotted on military land warrants. There were also 21,048 acres entered upon the Sioux and Chippewa strip and 607,681 acres taken up under the timber culture law. Leaving these two latter items out of the calculation, we have an aggregate of about 19,500 new farms commenced during the year.

1,000,000 Bottles
OF THE
Centaur Liniments!

have been sold the last year, and not one complaint has reached us that they have not done all that is claimed for them. Indeed, scientific skill cannot go beyond the result reached in these wonderful preparations. Added to Carbolic, Arnica, Mentha, Seneca-Oil and Witch Hazel, are other ingredients, which makes a family liniment that defies rivalry. Rheumatic and bed ridden cripples have by it been enabled to throw away their crutches, and many who for years have been afflicted with Neuralgia, Sciatica, Caked Breasts, Weak Backs, etc., have found permanent relief.

Mr. Josiah Westlake, of Marysville, O., writes:

"For years my Rheumatism has been so bad that I have been unable to stir from the house. I have tried every remedy I could hear of. Finally, I learned of the Centaur Liniment. The first three bottles enabled me to walk without my crutches. I am mending rapidly. I think your Liniment simply a marvel."

This Liniment cures Burns and Scalds without a scar, extracts the poison from bites and stings, Cures Chilblains and Frosted-feet, and is very efficacious for Ear-ache, Tooth-ache, Itch and Cutaneous Eruptions.

The Centaur Liniment, Yellow Wrapper, is intended for the tough fibres, cords and muscles of horses, mules and animals.

READ! READ!

Rev. Geo. W. Ferris, Manorkill, Schoharie Co., N. Y., says:

"My horse was lame for a year with a fetlock wrench. All remedies utterly failed to cure and I considered him worthless until I commenced to use Centaur Liniment, which rapidly cured him. I heartily recommend it.

It makes very little difference whether the case be "wrench," sprain, spavin or lameness of any kind, the effects are the same. The great power of the Liniment is, however, shown in Poll-evil, Big-head, Sweeny, Spavin, Ring-bone, Galls and Scratches. This Liniment is worth millions of dollars yearly to the stock-growers, Livery-men, Farmers, and those having valuable animals to care for. We warrant its effects and refer to any Farrier who has ever used it.

Children.

A complete substitute for Castor Oil, without its unpleasant taste or recoil in the throat. The result of 20 years' practice by Dr. Samuel Pitcher, of Massachusetts.

Pitcher's Castoria is particularly recommended for children. It destroys worms, assimilates the food, and allows natural sleep. Very efficacious in Croup and for children Teething. For Colds, Feverishness, Disorders of the Bowels, and Stomach Complaints, nothing is so effective. It is as pleasant to take as honey, costs but 35 cents, and can be had of any Druggist.

This is one of many testimonials:

"CORNWALL, LEBANON Co., PA.,
"March 17, 1874.

"*Dear Sir:*—I have used your CASTORIA in my practice for some time. I take great pleasure in *recommending it to the profession* as a safe, reliable and agreeable medicine. It is particularly *adapted to children* where the repugnant taste of Castor Oil renders it so difficult to administer. E. A. ENDERS, M.D."

Mothers who try Castoria will find that they can sleep nights and that their babies will be healthy.

MARK THESE FACTS.
The Testimony of the Whole World.
HOLLOWAY'S PILLS.

"I had no appetite; Holloway's Pills gave me a hearty one."
"Your Pills are marvellous."
"I send for another box, and keep them in the house."
"Dr. Holloway has cured my headache that was chronic."
"I gave one of your Pills to my babe for cholera morbus. The dear little thing got well in a day."
"My nausea of a morning is now cured."
"Your box of Holloway's Ointment cured me of noises in the head. I rubbed some of your Ointment behind the ears, and the noise has left."
"Send me five boxes of your Pills."
"Let me have three boxes of your Pills by return mail, for Chills and Fever."
I have over 200 such testimonials as these, but want of space compels me to conclude.

For Cutaneous Disorders,
And all eruptions of the skin, this Ointment is most invaluable. It does not heal externally alone, but penetrates with the most searching effects to the very roots of the evil.
HOLLOWAY'S PILLS
Invariably cure the following diseases
Disorder of the Kidneys.
In all diseases affecting these organs, whether they secrete too much or too little water, or whether they be afflicted with stone or gravel or with aches and pains settled in the loins over the regions of the kidneys, these Pills should be taken according to the printed directions, and the Ointment should be well rubbed into the small of the back at bedtime. This treatment will give almost immediate relief when all other means have failed.
For Stomachs Out of Order.
No medicine will so effectually improve the tone of the stomach as these pills; they remove all acidity occasioned either by intemperance or improper diet. They reach the liver and reduce it to a healthy action; they are wonderfully efficacious in cases of spasm, in fact they never fail in curing all disorders of the liver and stomach.
HOLLOWAY'S PILLS are the best known in the world for the following diseases; Ague, Asthma, Bilious Complaints, Blotches on the Skin, Bowels, Consumption, Debility, Dropsy, Dysentery, Erysipelas, Female Irregularities, Fevers of all Kinds, Fits, Gout, Headache, Indigestion, Inflammation, Jaundice, Lumbago, Liver Complaints, Piles, Rheumatism, Retention of Urine, Scrofula or King's Evil, Sore Throat, Stone and Gravel, Tic Doloroux, Tumors, Ulcers, Worms of all kinds, Weakness from any cause, etc.
IMPORTANT CAUTION.
None are genuine unless the signature of J. HAYDOCK, as agent for the United States, surrounds each box of Pills and Ointment. A handsome reward will be given to anyone rendering such information as may lead to the detection of any party or parties counterfeiting the medicines or vending the same, knowing them to be spurious.
☞ Sold at the manufactory of Prof. HOLLOWAY & Co., New York, and by all respectable druggists and dealers in medicine throughout the civilized world, in boxes at 25 cents, 62 cents and $1 each.
☞ There is considerable saving by taking the larger sizes.
N. B. Directions for the guidance of patients in every disorder are affixed to each box.
